ABOUT ME

Junior Frontend Developer with Full Stack training and a strong interest in user-centred web development. I enjoy creating intuitive, well-organised, clear and pleasant to use interfaces, with particular attention to UX/UI, accessibility and visual details. I also have foundational knowledge of databases and backend technologies. I am a motivated, curious and detail-oriented developer and eager to continue learning and grow within a professional development team.

PROJECTS

kāma

I'm the founder of kāma, a fully customizable website, suitable for any kind of business, that can be managed from the client through the dashboard (editing prices, descriptions, products, pictures, offers, events, links to social media and booking apps...)

Used Stack: Laravel + Blade & Bootstrap + Vanilla JS | Database SQLite - Google Translate API

Link: <https://kama-web.com>

Examples: searesidence.kama-web.com tattooshop.kama-web.com

Swipe Cleaner

An app to clean the smartphone photo gallery with a swipe (left: "Keep it", right: "Delete it"). Pictures marked for deletion are added to a list that requires confirmation before being permanently deleted.

Used Stack: React Native - Typescript - Expo Platform

Link: <https://tinyurl.com/SwipeCleanerApk>

CodeX Streaming

Online streaming website simulation with admin dashboard.

Test it as **admin** with **admin@codex.com** or as **user** with **user@codex.com** and using **password123** as **password** to access all content and features.

Used Stack: Angular + Laravel + Database MySQL
API Restful Bearer Token + JWT Token SHA512

Link: <https://www.aurwebdev.com/>

Coin Farm

Coin Farm is an interactive arcade game developed, in which the player must collect coins while avoiding obstacles.

Used Stack: Html, Css, Javascript Vanilla

Link: <https://coinfarmgame.netlify.app>

Oleificio Lombardo

Website for an olive oil mill connected to the Shopify account, designed to match the website's style. I chose the colour palette and shapes, inspired by olives and the Sicilian countryside, reflecting my attention to detail and commitment to an authentic user experience.

Used Stack: HTML, CSS, Vanilla JavaScript

Link: <https://oleificio lombardo.it>
